What does mobility actually mean – and when is mobility smart?

When dealing with the earth's finite resources, we need to support innovative thinking for a sustainable economy. Mobility is a key issue here: high traffic volumes in urban areas require new approaches for both personal transport as well as logistics. But how can mobility and mobility systems be steered towards sustainable paths? What infrastructure must be provided, e.g. with regards to cycling, charging or sharing? How can technological innovations or a different organisation of mobility contribute to sustainability? These are just some of the questions we want to address at this year's international RMS Summer School.

Professional Programme (19/08/2022 – 26/08/2022)

Can Smart Mobility contribute to the sustainable transformation of urban space? The professional programme of the RMS Summer School will help you explore developments and solutions for the mobility of the future during:

- impulse-talks by (international) experts from academics and practice on chances and risks of Smart Mobility
- discussions with international students from all over the world and from different disciplines
- networking sessions which broaden your intercultural perspective and improve your English skills
- group work in international teams
- presentation of your results in a final gallery walk

Accompanying Programme (15/08/2022 – 18/08/2022)

The accompanying programme provides an experience of language, region and culture for all international participants. Local students can participate as well by supporting our guests as their buddies.

- German crash course for initial understanding
- getting to know the region
- buddy programme with local students
- joint events and mutual exchange

Information due to the Coronavirus Pandemic

The RMS Summer School is planned as on-site event in Gelsenkirchen, Germany. We will finalize our hygiene and safety measures for the event as soon as updated COVID-19 regulations are issued by the local government. Only persons who fulfil these regulations will be able to attend the event and we will update participants as soon as new information is available. However, in case of travel or meeting restrictions due to COVID-19, the event can be switched to an online conference.

Welcome to the international RMS SUMMER SCHOOL 2022

Ruhr Master School
of Applied Sciences

Target Group

The RMS Summer School is open to interested master students as well as bachelor students in higher semesters from all subjects. Please note that the number of participants is limited.

For International Students:

Requirements

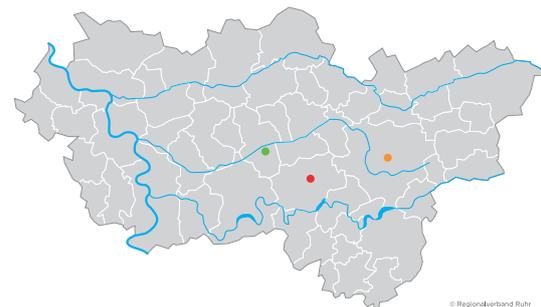

International applicants must submit both Curriculum Vitae (max. 2 pages) and letter of motivation (max. 1,800 characters), which show personal interest and qualifications regarding the topic and proof of English language skills (level B2 is desirable). You can submit your documents within the application process on our website.

Scholarship and Accommodation

The RMS Summer School is supported by the DAAD with funds from the German Federal Foreign Office. Scholarships would be awarded for your travel expenses, accommodation, catering and insurance (if travelling is possible due to COVID-19). Your accommodation would be close to the campus Gelsenkirchen in a student hostel, where you will be accommodated in double rooms. Please observe both the travel warnings of the German Federal Foreign Office and the regulations on travelling in your own country.

Event Location and Region

The venue is the campus of the Westphalian University of Applied Sciences in Gelsenkirchen, North-Rhine Westphalia, Germany. Gelsenkirchen is situated in the Ruhr Metropolis, the largest metropolitan area in Germany. Innovation and digital transformation are the driving forces behind the regional structural change from a former industrial location to a technology and science hotspot. The Ruhr Metropolis has a young, creative cultural scene and stands for a cordial life together.

The Dortmund University of Applied Sciences (●), the Bochum University of Applied Sciences (●) and the Westphalian University of Applied Sciences (●) cooperate in their technical and economic study programmes and bundle their offers in the Ruhr Master School. It offers master's degree students the opportunity to study in a networked, interdisciplinary and practice-oriented manner.

Application and Registration on www.summerschool.nrw

Due to the selection process, international students need to apply online **until 15/05/2022**.

Local students need to register online **until 15/06/2022**.
